Chapter 243: Uniform Reporting System for Health Care Claims
Data Sets *(routine technical)*

Rulemaking Timeline:

- <u>11/12/2013</u>   Review of rule changes sent to the payers & other interested Parties
- _____   Preliminary review of rule changes by AG.'s Office

- <u>02/06/2014</u>   Board approves initiating rule changes

- **_____**   Permission to *proceed* with rulemaking changes must be submitted to Governor's Office for approval

- <u>03/04/2014</u>   MAPA forms sent to SOS/Legislative Council

- <u>03/12/2014</u>   Newspaper publication date

- **04/03/2014**   Public Hearing

- <u>04/14/2014</u>   Deadline for comments

- <u>05/01/2014</u>   MHDO Board approves **adoption** of rule changes (*Board must adopt 120 days from comment period deadline)*

- _____   Permission to *finalize* adoption of the rule changes from the Governor's Office

- _____   Final review of adoption of the rule changes to the AG's Office

- _____   Send final adoption package to the SOS for adoption

---

Proposed changes address the following issues:

ICD-10: Currently payers submit claim diagnosis codes, procedure codes and E-codes in ICD-9 format (data elements MC039-MC053 and MC055-MC058). These will remain in effect for claims prior to October 1, 2014. Starting October 1, 2014, payers would submit ICD-10 diagnosis, other diagnosis, external cause of injury, procedure and other procedure codes, along with present on admission indicators and reason for visit diagnoses, under data element numbers MC200-MC326 (if available).   The amount of fields and the field lengths have been increased to accommodate the new ICD-10 coding.

Provider and service facility information: Service provider city, state and zip (MC033, MC034 and MC035) have been properly renamed and follow (as MC089, MC090 and MC091) additional service facility information, including service facility name, NPI and address lines (MC085, MC086, MC087 and

MC088). Billing provider fields have been expanded to include billing provider tax identification number, address lines, city, state and zip (MC079, MC080, MC081, MC082, MC083 and MC084). The additional information should help resolve provider identification issues and improve the MHDO's provider index.

Separate fields for the prescribing physician identifiers: Prescribing physician DEA and prescribing physician NPI will be collected in separate fields (PC047 and PC048, respectively).
